

# When will I be able to get a COVID-19 vaccine?

The supply of COVID-19 vaccine is limited and is being allocated to front-line health care workers and long-term care facilities at this time. This first phase is likely to take a few months, but the vaccine supply will increase over time and we expect that all adults should be able to be vaccinated in 2021.

*We will keep you posted as we know more!*

If you would like to be added to a wait list and notified of when the vaccine is available, please complete a short survey at the following website or use the QR code:
